Confirmation No.: 2343

Filed: October 22, 2004

Art Unit: 2629

For: COLD CATHODE FIELD EMISSION  
DISPLAY

Examiner: Yong H. Sim

**FOURTH INFORMATION DISCLOSURE STATEMENT**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

Supplementing the three prior IDS submissions and in accordance with the requirements of 37 CFR §§ 1.56 and MPEP 609, the Applicant through its attorneys and representatives, hereby brings to the attention of the Examiner the three Japanese language documents with machine translations identified on the accompanying Form PTO-SB/08. Copies are enclosed.

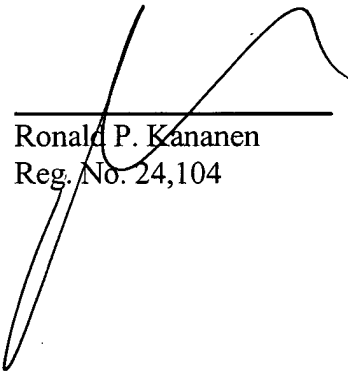

This submission is timely in that it is made prior to a first action on the merits.

The Japanese language documents were noted in an Office Action dated October 16, 2007 in connection with another corresponding Japanese application. A copy of the Action is submitted, but a translation is not readily available. The relevance of the documents can be gleaned from the English language translations and their citation in the corresponding Japanese application. It may be noted that JP 2000-251797 was also previously cited at least in the Second IDS.

It is requested that the Examiner review the translations noted and make such consideration of record.

Dated: December 17, 2007

Respectfully submitted,

---

Ronald P. Kananen
